Fakuma 2026 Technical Talk Schedule

You innovate. We validate.

Together, we accelerate circular polymers to market.

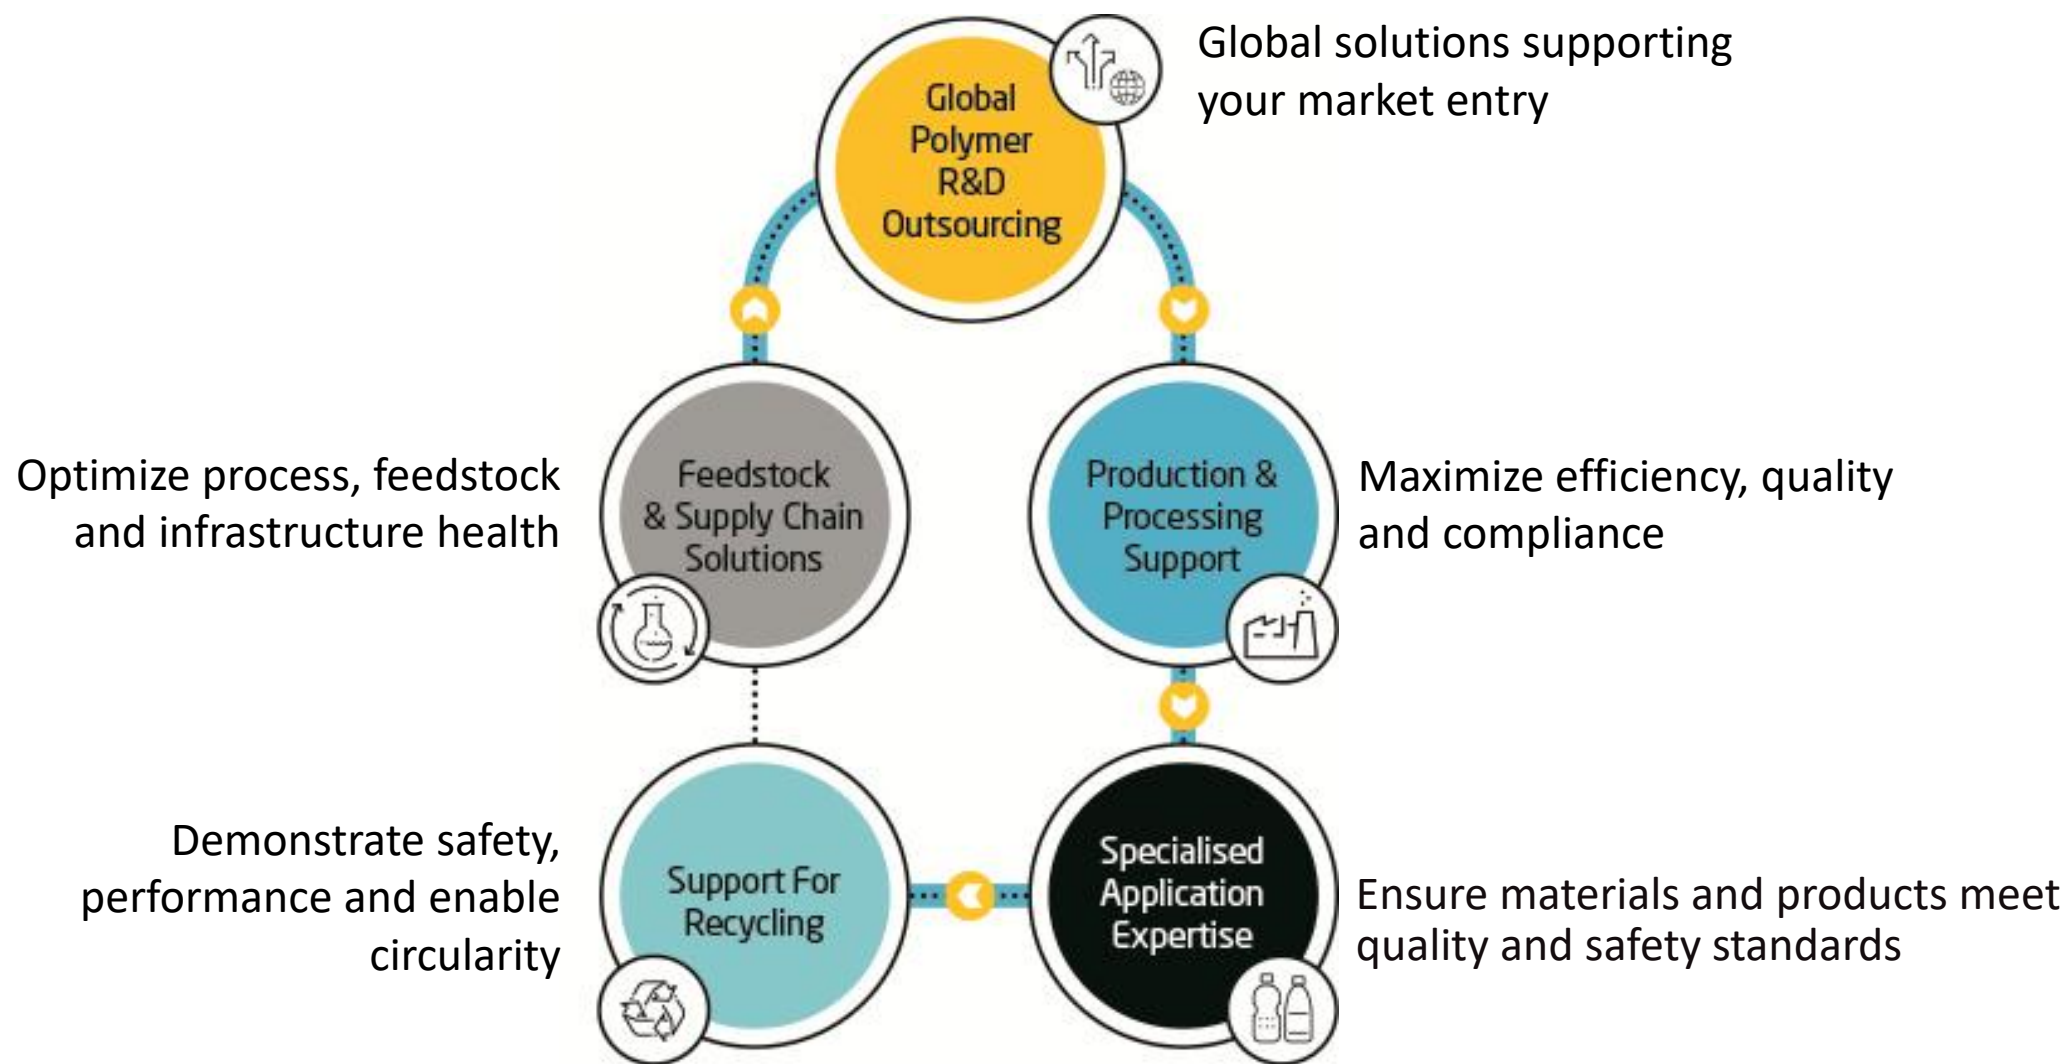

Fakuma Technical Talk Program 2026

TIME	Mon 12 October	Tue 13 October	Wed 14 October	Thur 15 October	Fri 16 October
11:00	Meet the Team at Booth B2 -2225	Automotive Polymers within European Union – Current Landscape Focused on ELV Regulation	Navigating Regulatory Challenges in Plastics: REACH, Microplastics and PPWR	Automotive Polymers within European Union – Current Landscape Focused on ELV Regulation	Automotive Polymers within European Union – Current Landscape Focused on ELV Regulation
13:00	Vehicle Interior Air Quality: (recycled) Polymer Materials and Laboratory Data	PPWR: Product Testing and Support with Conformity Assessment	The New Purity Requirements under EU 10/2011: Implications Across the Plastic Supply Chain	Laboratory Outsourcing: A Roadmap for this Journey and How to Manage Potential Considerations	Laboratory Outsourcing: A Roadmap for this Journey and How to Manage Potential Considerations
15:00	Automotive Polymers within European Union – Current Landscape Focused on ELV Regulation	Laboratory Outsourcing: A Roadmap for this Journey and How to Manage Potential Considerations	Vehicle Interior Air Quality: (recycled) Polymer Materials and Laboratory Data	The New Purity Requirements under EU 10/2011: Implications Across the Plastic Supply Chain

Intertek's Polymer Science solutions: Addressing your challenges

Responsive Customer Service

intertek
infront

Regulatory Assurance

PPWR | ELV | REACH | PFAS | Microplastics |
Nanoforms | Food Contact

Engineering and Maintenance Process Analytical Technology (PAT)

- System integration:
Design, development, engineering,
Procurement, Commissioning
- Calibration and maintenance (incl.
Handheld devices)

Chemical Testing

- Regulatory testing (PPWR, REACH, ELV)
- Method development and validation
- Food contact and packaging testing
- Chemical composition, trace analysis
- Elemental and (volatile) organic analysis

Mechanical Testing

- Mechanical and Thermal testing
- Rheological Testing
- Weathering / Exposure Program

Processing Hall

- Compounding
- Extrusion and Injection moulding

Safety Health & Environmental services (SHE)

- Stack emission
measurements
- Waste water analysis
- Occupational hygiene

Logistics
